Answer: A

8.Marsha's boss directed her to create a mobile version of the company's Web site. To ensure her mobile site is optimized, Marsha eliminates banners and advertisements.
What other recommendations should Marsha follow?
A. Use images instead of video on the Web site.
B. Use white space to give the site an uncluttered look.
C. Use Flash content to replace lengthy text descriptions.
D. Create several Web sites, each tailored to a specific mobile platform.
Answer: B

9.Matthew has embedded a video in his Web page using the HTML5 video format. The video is not rendering properly.
He asks Arlene to help determine the problem, so she reviews his code, which appears as follows:

```
<video height="210" class="center" controls="controls">
<video src="video.ogg" type="video/ogg" />
Your browser does not support the HTML5 video element.
</video>
```

What is wrong with this code?
A. The ogg video format is not supported by HTML5.
B. One of the video tag instances has not been properly closed.
C. The browser plug-in information required to view the video is missing.
D. The second instance of the <video> element should be replaced with the <source> element.
Answer: D
