2.The Cloud Pak for Data System web console displays the storage details.

The screenshot shows the IBM Cloud Pak for Data System web console. At the top, there is a navigation bar with the text "IBM Cloud Pak for Data System". Below this, a breadcrumb trail reads "Home / Resource usage / Resource usage details". The main heading is "Resource usage details", with two tabs: "Software" and "Hardware", where "Hardware" is selected. Under the "Hardware" tab, there is a section titled "All nodes" with a sub-header "Last updated: Today, 5:04:12 PM". A legend indicates: a blue square for "Selected hardware", a light blue square for "Total used", and a grey square for "Total available". A donut chart titled "Storage" shows 1% usage, with the text "430.00 GB/57344.00 GB" below it. Below the chart is a search bar labeled "Find hardwares". At the bottom, a table lists hardware nodes with their roles and storage usage.

Hardware	Role	Storage
enclosure1.node1	Control	123/10240 GB
enclosure1.node2	Control	20/10240 GB
enclosure1.node3	Control	123/10240 GB
enclosure1.node4	Worker	133/13312 GB
enclosure2.node1	Worker	0/0 GB
enclosure2.node2	Worker	31/133312 GB
enclosure2.node3	Unset	--/-- GB
enclosure2.node4	Unset	--/-- GB

How much total storage is available for the worker nodes?

- A. 64,000 GB
- B. 30,720 GB
- C. 26,624 GB
- D. 128,000 GB

Answer: B

3.Which command is used on Cloud Pak for Data System to reset a password policy to the system initial values?

- A. ap config reset-pwpolicy
- B. ap setup reset-pwpolicy
- C. ap_external_idap reset-pwpolicy
- D. apusermgmt reset-pwpolicy

Answer: D

Explanation:
